VISHNU KUMAR

Software Engineer | React | Next.js | TypeScript | Node.js

8279354620 ◆ work.vishnukumar@gmail.com ◆ Gurugram, Haryana, 122018 ◆ Github ◆ Portfolio ◆ Linkedin

PROFESSIONAL SUMMARY

Software Engineer with ~3 years of experience building user-centric, high-performance web applications in product-based environments. Delivers end-to-end features with React, Next.js, TypeScript, and Node.js, from component architecture and state management to REST API integration, and works closely with team members to debug issues and improve how software gets built.

WORK EXPERIENCE

Software Engineer - Turning Cloud Solutions (Supplymint) Jun 2024 - Present

Gurugram

- Built end-to-end React.js features for the product portal, integrating REST APIs, state management, and multi-step user workflows used by 1k+ retailers and vendors.
- Architected a reusable, component-driven React UI library that cut feature development time by 50% and kept 50+ screens consistent.
- Led the company website redesign (UX-first, responsive, Framer Motion) end-to-end, improving load time by 60%.
- Delivered 50+ core product features and workflows, integrating business logic.

Jr React.js developer - Zysk technologies Nov 2023 - May 2024

Bangalore

- Built scalable front-ends with React.js, Next.js, TypeScript, Material UI, and Tailwind CSS for 3 production platforms.
- Optimized frontends for EdTech, Photography, and Real estate platforms, improving page load time by 30%.
- Shared knowledge in 10+ Learning and Development sessions, supporting the team's continuous growth.

Software Trainee Engineer - Tapasvi Info Solutions Nov 2022 - Apr 2023

Hathras

- Integrated real-time chat using Firebase in Flutter apps, enabling instant messaging for users
- Ensured smooth data synchronization and real-time updates with Firebase in Flutter projects.

EDUCATION

Rajiv Academy For Technology And Management 2019 - 2022

Bachelor of Science, CS Mathura

SKILLS

Languages: JavaScript, Typescript, HTML, CSS, SQL, Java, Dart,

Frontend: React.js, Next.js, Redux, Redux-toolkit, Tailwind CSS, Material UI, Shadcn, Framer motion, Flutter

Backend: Node.js, Express.js, Socket.io (WebSockets), JWT, REST APIs

Database: MySQL, MongoDB

Tools and Other: VS Code, Cursor, Claude, ChatGPT, Postman, Git & GitHub, Figma, Aiven, Firebase

PROJECTS

Prep Pilot – React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Google Gemini API, JWT Link

- Built a full-stack AI interview prep platform using Google Gemini that scores resume-to-job fit and flags skill gaps.
- Generated role-specific technical and behavioral interview questions with model answers, plus a day-by-day prep plan built around each skill gap.
- Built an ATS-friendly resume generator that tailors a resume to the target role and exports it as a PDF.
- Implemented JWT authentication with bcrypt hashing and protected API routes to keep each user's data private.

Moments – React.js, Tailwind CSS, shadcn/ui, Node.js, Express.js, MySQL, JWT Link

- Built a full-stack social media platform end to end, with a React.js frontend and a Node.js/Express.js REST API backed by a normalized MySQL schema modelling users, posts, comments, likes and follows.
- Implemented JWT authentication with bcrypt password hashing and protected API middleware for private routes.
- Delivered posts with photo uploads, comments, likes, follow/unfollow, and profile and cover photo updates.
- Designed a responsive UI with light and dark mode using Tailwind CSS and shadcn/ui.

CERTIFICATIONS

Frontend development - **Simplilearn**

SQL certification – **Simplilearn**

ACHIEVEMENTS

Solved 350+ DSA questions on Coding Ninjas, LeetCode and GeeksforGeeks, strengthening problem-solving and core CS fundamentals.
